

No mo FOMO working with 2 dogs at once

	Dog/puppy should be comfortable in an Ex-pen and understand the treat n train
	Dog/puppy should understand stationing on a mat or other easy to move target to get reward from T&T
	Teach a release from the mat using their name or other consistent cue
	Have pup in Ex-pen with T&T and their station mat, mark/reward from T&T when they get on the mat. Randomly release with their name for a play session.
	1-Work on Distance you are from the ex-pen up to out of sight
	2-Duration between treats and duration dog has to stay before being released to play with you
	3- Distractions happening outside the ex-pen, up to working with/playing with another dog
	Repeat 1,2 & 3 with one side of the ex-pen removed
	Repeat 1,2 & 3 with just the station and the T&T
	Repeat 1, 2 & 3 with treats coming from you
	Work in new locations, including at the club/during events
